DETAILED ACTION

Allowable Subject Matter

1. Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
2. The following is a statement of reasons for the indication of allowable subject matter: claim 16 is directed to compounds wherein the variable Z requires that the alkyl group be a cycloalkyl group having 3-18 carbons. The prior art of record fails to teach or suggest structurally similar compounds that have this limitation.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 15 and 17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Takeo et al (US 3,758,442).

Takeo et al teach¹ the following compound:

This compound reads on all the limitations of claims 15 and 17
